QF05/0407-4.0E	Study Plan for Bachelor Program - Study Plan Development and Updating Procedures/ Logistics Management Department
----------------	--

Course Plan for Logistics management (Bachelor Program) No.: (2023/2024)

Approved by Deans Council by decision () dated ()

(132) Credit Hours

Study system / hybrid program

Type of specialty	<input checked="" type="checkbox"/> Humanitarian	<input type="checkbox"/> Scientific / technical	<input type="checkbox"/> Medical Sciences
-------------------	--	---	---

Teaching style	Percentage of study plan hours / number	Model used (synchronous: asynchronous)
Complete e-learning courses	20% number (27) C h	1:1
Blended Learning courses (For Humanity)	40% number (54) C h	1:1
Traditional learning courses (for humanity)	40% number (51) C h	2:0

Important note: (The teaching patterns of the subjects are distributed at all academic levels in the program)

Program Vision: Toward Excellence in Teaching and Scientific Research in Logistics Management to Enhance Competitiveness.

Program Mission: Preparing Innovative Entrepreneurs in the field of Logistics management through Rigorous Applied Technological Education, Enhancing Research Expertise, Achieving excellence and Sustainable Community Progress both locally and globally

Program objectives:

1. Providing students with in-depth scientific and applied knowledge in the various fields of Logistics Management.
2. Continuous improvement of department programs at both the bachelor and postgraduate studies levels.
3. Supporting scientific research publications and implementing various academic activities for faculty members and students.
4. Excellence in the quality of graduate students in line with labor market needs.
5. Deepening the relationship with students and mobilizing the role of counseling and guidance.
6. Promoting the role of the department in local community service.

Program learning outcomes ((MK= Main Knowledge, MS= Main Skills, MC= Main Competences) .1

Main knowledge	
MK1	Demonstrate a comprehensive, consistent and structured knowledge of Logistics Management theories, concepts and principles.
MK2	Comprehensive understanding of Logistics Management treatments and methods of solving Logistics Management problems.
MK3	Employ critical analytical to assess opportunities, challenges, strengths and weaknesses in the local and global business environments.
Basic skills	
MS1	Possess a variety of skills for the market needs.
MS2	Apply quantitative and analytical skills in solving complex Logistics Management problems and finding creative and professional solutions to them.
General competencies	
MC1	Intelligent and flexible communication, and collaboration effectively and professionally with disparate work teams.
